MEDIA RELEASE

Wednesday 19, July, 2017

**Energy Minister Khan Leads MEEI Team at a Meeting with OWTU
Officials**

Port of Spain –

Earlier today Minister Khan leading a team of officials from the MEEI met with a team of representatives of the OWTU led by President General Ancil Roget to discuss matters pertaining to Petrotrin.

Minister Khan led the discussion by highlighting some of the major areas of concern arising out of the recently completed report into the areas of Petrotrin's improvement. Some of these areas were improving Operational Efficiencies, Unpaid Liabilities to the State, Liquidity and Asset Integrity, the company's cost structure and competitiveness, and the lack of working capital.

He indicated that as the Government is the custodian on behalf of the state's resources he has to ensure that the all resources are put to best use. Minister Khan indicated that "collectively we have to chart a way forward and that the Government will work together with the OWTU" to get the best out of Petrotrin.

In closing Minister Khan thanked President General Roget for his "open and frank contributions".
